

Matthew Warren

December 3rd 8am-8pm, Town Hall

Shirreyder Partee Glass
Vannin son Barrantee
Phurt le Moirrey

Green Party candidate
for Port St Mary
Commissioners

1. Decisions for the Community by the Community

Port St Mary is full of people with ideas, experience, and expertise. I'd like the Board of Commissioners to bring together residents to learn, discuss, and make recommendations. When decisions affect our community, our community should be in the room, shaping the outcome.

2. Local Energy for Local Use

Generating our own power and cutting energy waste are fantastic opportunities to save money for rate-payers and reduce pollution. I would push to:

- Implement the review of buildings managed by the Commissioners to show where energy saving and renewables could cut costs and reduce pollution.
- Raise awareness of available energy-saving support available for residents and businesses.

3. Cut Waste - Cut Costs

I want to live in a village that makes it easy for residents to reduce waste, reuse items, and recycle more. I'd:

- Push for longer opening hours at the Southern Amenity Site and lifting the ban on people being able to salvage materials and goods.
- Make recycling accessible, exploring ways to support or subsidise kerbside collections, including working with neighbouring authorities on a shared recycling service to reduce costs

4. Open, Accountable Governance

Residents deserve to know how their money is being spent and how decisions are made.

Port St Mary Commissioners have fallen behind on financial reporting and communication. I would push for:

- Outstanding accounts to be finalised and published, alongside clearer, more regular communication with residents.
- Reviewing how we can move more of the Commissioners' business into public sessions.

5. Place and Culture

Port St Mary Commissioners officially endorsed the Year of the Manx Language, and we can take this further. I'd like to build on the vibrant local arts and language scene to help make Port St Mary a hub of Manx culture available to all to participate.

I would:

- Push to commission new public art and events.
- Support the revitalisation of our visitor economy through cultural events.

I want us to be even more proud of our beautiful village, and feel a deep sense of belonging.

If you have an issue you'd like to raise, get in touch:

candidate@matthewwarren.info

I am an entrepreneur, musician, educator, and passionate supporter of Manx culture.
I'm standing with a **vision for a thriving Port St Mary**, where we all feel:

- More connected to our **community**
- More able to **shape its future**
- More **empowered to act** for our Biosphere

I would work for you to:

- **Reduce costs** for rate-payers through more sustainable approaches to energy and waste
- Bring the **community into decisions** that affect all of us
- **Draw visitors and connect our community** with its language and heritage through cultural projects.
